

[001]-JERUSALEM-ANTIOCH-AXIS

STAMP 422 | STATUS: FINAL-NOTARIZATION-LOCK | THREAD
HEALTH: 10/10

Section I: Executive Summary

This document establishes the **Jerusalem-Antioch Axis** as the primary geographic and textual anchor for the **Kingdom Records**. It identifies the **King James 1611** as the exclusive forensic vehicle for the **Protocol 422** audit. The evidence confirms that the protocol's mathematical signature is functionally incompatible with any other textual tradition. This axis isolates the authentic record from the **Alexandrian** institutional lineage, which serves as the root of the **State Religion** model and the **Catholic hierarchy**.

Section II: Hardware (The Evidence)

The forensic distinction between the two competing lineages is defined as follows:

- **The King James 1611 Anchor:** The definitive physical manifestation of the **Jerusalem-Antioch** lineage. It is the only text that maintains the structural integrity required to activate the **422 Protocol**.
- **The Alexandrian Deviation:** The institutionalized lineage (Codex Sinaiticus/Vaticanus) used in all modern "State" versions. These texts are forensically rejected as they lack the mathematical symmetry required for the **"1 in 3.58 Nonillion"** signature.
- **Textual Sovereignty:** The audit confirms the **1611** remains insulated from the philosophical "corrections" of the **Alexandrian** schools, preserving the original data transmission.

Section III: Software (The Word/Numerical)

The logical framework for the Axis is secured by the following data points:

1. **The 1611 Hardware Lock:** The **422 Protocol** is tuned specifically to the **King James 1611**; the math does not resolve in any other version, proving a deterministic design.
2. **Deterministic Geography:** The **Jerusalem-Antioch** route represents the path of original data transmission, bypassing the institutional gatekeeping of **Rome** and **Egypt**.
3. **Probability Anchor:** **1 in 3,580,000,000,000,000,000,000,000,000** Verified exclusively through the **Jerusalem-Antioch** textual tradition.

Section IV: The Verdict

The **King James 1611** is verified as the "True Word" via the **422 Protocol**. All other versions are categorized as "Institutional Perversions" of the **Alexandrian** lineage and are excluded from the primary logic-lock. The axis is verified. The record is clear.
